### COLUMBUS OVER TOP IN WAR FUND DRIVE

COLUMBUS, Miss., Nov. 15. (Spl.)—
Columbus has gone "over the top" in
the united war work campaign, having already subscribed \$12,730, while the
total allo ment for the city was only
\$7,000. The quota for the entire county
is \$14,000, but as committees in rural
communities have not yet submitted
their reports, it is not known just what
the total subscriptions outside of Columbus amount to.

Of the \$12,730 collected in Columbus,
\$6,000 was secured by two teams composed of business men, one representing the army and headed by S. B.
Street, Jr., and the other representing
the navy, with F. P. Phillips as commander, while \$4,830 was secured at
the Mississippi Industrial institute and
college, \$1,000 at the city schools and
\$1,400 by the ladies' committee.

Proposes 6-Cent Fare for Two Years and 6 Tickets for

E. H. Crump, after his usual spectacular fashion, got into the street car fight Friday with both feet by making two propositions—one to the car company and one to the people.

The street car company is asking that the people absolve it from the charter provision to charge a fare of five cents and it tickets for 50 cents and permit it to charge a straight fare of six cents.

An ordinance to the company is asking that the people absolve it from the charter provision to charge a fare of five cents and it tickets for 50 cents and permit it to charge a straight fare of six cents.

and permit it to charge a straight fare
of six cents.

An ordinance to that effect has passed
two readings by the city commission.
The county board of election commissioners has been asked to set a time
for a referendum election. A supplemental registration must be held and
the usual preliminaries observed before the election can be held which
can not be within 29 days of the call
for the vote.

If the people vote for a six-cent fare
the city commissioners are pledged to

If the people vote for a six-cent fare the city commissioners are piedged to pass the ordinance granting six-cent fare on third and final reading and if the people vote against it then they will vote to kill it.

Crump's proposition is that he will favor a six-cent fare for two years—provided, at the expiration of that time the street car company agrees, and provides the necessary safeguards to guarantee the performance, to change its contract with the city and sell six tickets for 25 cents and offer them for sale on all street cars at all hours when in operation and with universal transfer.

Crump proposes that the street car company shall give the necessary proof of its sincerity by accepting the conditions in advance of the approaching election. He says if the company shall agree, and so amend its contract, to make this concession to the people in the future in exchange for the concession it is asking of the people at the present, he is willing to endure what he describes as an excessive fare for the benefit that will come after two years, when, he believes, the company will be amply able to provide transportation at a much reduced cost.

In the event of the failure of the company to meet this proposition Crump calls on the people of the city to organize in every ward and go to the polis and defeat the application for a six cent fare. continuing of the first considerable parties at the trailing and the most success.

Dr. Elwood Mead Details Federal Plan for Reclamation Work in Behalf of Fighters.

"These men will own their own farms and will strike a blow at the tenantry that has been increasing at an airming rate. Tenantry means that the lands rented are not as well cared for as if they were owned by the men who live on them. The best of our young men and women have been leaving the tarms for the cities and we hope to divert the stream and send it back to the farms and make the rairal life stronger and better.

"Of course the first stages of this gigantic pan are bound to be experimental, although in a sense they will be practicable, for the reason that we have the plans and the examples of other countries who have undertaken similar projects to fall back upon. England already has entered into large farm-home movements that have worked far beyond the experimental stage. As in the war we have the mistakes made by our allies already pointed out to us and we will not make them ourselves.

"The plan is very, very big and will need the co-operation of every state and every municipality to make it a success. But it is for/the home-coming soldiers, and we are sure that every man and woman who can do anything to assist will be more than willing to show the same spirit that marked their war activities and enter whole-heartedly into the project that will give every soldier a home. During the afternoon Dr. Mead consulted with land owners and business men as to the best course Memphiand Tennessee can adopt toward adding in the project and every man piedged heartiest co-operation in carrying out beartiest co-operation in carrying out the project.

ARRANGING OCCUPATION

WASHINGTON Nov. It. News that an American military mission, headed by Maj. Gen. Charles D. Rhodes, commander of the 12d (Rainbow) division, at last reports, will visit German great headquarters at Spa. Beigium, next Saturday, aroused much speculation here. So far as could be learned no official information as to the object of the trip had reached Washington.

The purely military character of the mission was regarded as an indication that Gen. Rhodes' trip was for the purpose of arranging with the German high command for the occupation of various fortresses in Alsace-Lorraine which lie in front of the American line. These include the Metz-Thiouville positions, and Strassburg on the Rhine. Previous reports show that definite dates have been fixed by Marshal Foch for his entry into these German strongholds and his directions to the Germans as to the time and method of their retirement may be carried by the American officers.

It is possible that immediate steps to relieve the foot situation in Germany, to some extent, with the surplus stores of this American army in France may be under consideration. Gen. Pershing has available at least a three monthal stock for his forces and it is constantly being increased. Secretary Baker indicated yesterday that it might be possible to use some part of this reserve to meet urgent needs in army territory, aithough he did not say any definite plan had been framed.
